# Clinical Research

We are experienced in sourcing individuals across all phases of clinical trials from Phase I (Translational Medicine) to Phase IV (post marketing), with an extensive understanding of clinical research recruitment as well as comprehensive knowledge of the technical skills and experience required to work in this industry.

We offer a full portfolio of recruitment services in order to source contract, interim and permanent individuals as well as offering bespoke services such as Executive Search, Contract Management, Payroll Services and Recruitment Advertising.

RHL partner with each client and build long term relationships to ensure we understand and meet their needs. Our approach is adaptable, since no two clients are the same. This flexibility allows us to adjust to the ever evolving business realities faced by our clients.

Because our consultants specialise in specific areas we know the market in depth and are connected to the people currently employed in these sectors. Through engagement with both passive and active candidates we are able to provide our clients with shortlists of qualified and competent people.

Supported by a number of offices we are able to provide local, national and global campaigns.

## Roles we recruit for include:

- Clinical Trials Assistant (CTA)
- Clinical Research Associate (CRA)
- Clinical Project Managers
- Clinical Study Managers
- Clinical Research Scientists
- Clinical Quality Assurance
- Medical Monitor
- Clinical Physician
