

A photograph of an industrial facility, likely a water treatment plant or power station. The scene is dominated by a complex network of large, polished silver metal pipes that run horizontally and vertically across the frame. Some pipes are supported by metal brackets. In the lower-left foreground, there is a prominent yellow cylindrical tank with several smaller yellow components attached to it. Various valves, including blue-handled ones, and other mechanical parts are visible throughout the system. The background shows more industrial structures and a concrete floor. A bright blue rectangular overlay is positioned in the center of the image, containing white text.

Building Services Design

RHL are industry leaders in the recruitment of Building Services Design personnel with a history that stretches back to 1977, when the business was founded to support this sector.

The company has since grown into a specialist recruitment provider for UK and international MEP projects and continues to support major developments worldwide.

We offer a full portfolio of recruitment services in order to source contract, interim and permanent individuals as well as offering bespoke services such as Executive Search, Contract Management, Payroll Services and Recruitment Advertising.

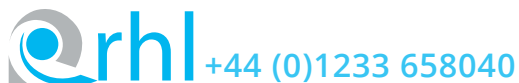

RHL partner with each client and build long term relationships to ensure we understand and meet their needs. Our approach is adaptable, since no two clients are the same. This flexibility allows us to adjust to the ever evolving business realities faced by our clients.

Because our consultants specialise in specific areas we know the market in depth and are connected to the people currently employed in these sectors. Through engagement with both passive and active candidates we are able to provide our clients with shortlists of qualified and competent people.

Supported by a number of offices we are able to provide local, national and global campaigns.

Disciplines we recruit for include:

- **Building Services**
- **Mechanical**
- **Electrical**
- **Public Health**
- **Fire Protection**
- **Sustainability**
- **Project Management**
- **BIM**
- **CAD – Including Revit**
