

A white electric car is shown from a side-rear perspective, parked at a charging station. An orange charging cable is plugged into the car's charging port. The car's interior is visible through the windows, showing a driver and a passenger. The background is a blurred indoor setting, likely a showroom or exhibition hall. A blue rectangular overlay is positioned in the center of the image, containing the text 'Automotive Recruitment' and 'Electric Vehicle' separated by a vertical line.

RHL, in its 40th year of operation, provides specialist recruitment services for the automotive industry across a range of disciplines. Cleaner, sustainable, methods of transportation are on the rise and RHL as a company recruit for all aspects of future vehicle development.

We offer a full portfolio of recruitment services in order to source contract, interim and permanent individuals as well as offering bespoke services such as Executive Search, Contract Management, Payroll Services and Recruitment Advertising.

RHL partner with each client and build long term relationships to ensure we understand and meet their needs. Our approach is adaptable, since no two clients are the same. This flexibility allows us to adjust to the ever evolving business realities faced by our clients.

Through engagement with both passive and active candidates we are able to provide

our clients with shortlists of qualified and competent people.

Supported by a number of offices we are able to provide local, national and global campaigns.

Disciplines we recruit for include:

- **Advanced Engineering**
- **Battery Development**
- **CAE / FEA / CFD**
- **ECU Calibration**
- **Controls / Systems**
- **Design / Development**
- **Hardware / Software**
- **Homologation / Certification**
- **Manufacturing / Production**
- **Project / Programme**
- **Purchasing & Supply Chain**
